The Trans-Mississippi and International Congress is composed of delegates from every State and Territory West of the Mississippi river. The idea of this exposition originated in that Congress at its session at Omaha in 1893, and the project has become a National enterprise and the National Commission has been organized and is in active service, there being one commissioner for each of the several departments of the Government. Most of the Trans-Mississippi States are well along in the way of gathering exhibits from their respective States and many of them have made liberal appropriations, while others are preparing exhibits through private enterprise.

Vice-President H. B. Maxson of Reno, has made arrangements whereby he can get Nevada exhibits, shipped from any point in the State along the line of the C. P. R. R., to Omaha and return, and he requests all persons who wish the interests of the State advertised, to co-operate with the Exposition County Commissioner of his county, whose name is shown above, and prepare some product of his county and send it to the nearest point on the C. P. R. R. from which place it will be sent to Omaha and exhibited, and return to the same point at the close of the exposition, free of expense to the exhibitor. Full information should accompany everything sent for exhibition. Before sending anything to the line of the railroad a full description should be given. The Exposition Commissioner of the county, who in turn will notify the Vice-President, who will notify him what action to take, otherwise there might be many duplications. Apply to your County Representative for further information, and don't let this opportunity of advertising the resources of Nevada be lost.

Resolved, 'That the people of the Island of Cuba are and of right ought to be free and independent.'

CUBA FIRST, THEN PORTO RICO.

A few weeks ago it was announced as the policy of the powers that be, at Washington to send an invading army to Porto Rico and take possession of the island. Orders were given to organize an army corps for service in Porto Rico, which has a more salubrious climate than Cuba, and which is occupied by a comparatively small Spanish force. Now the project of invading Porto Rico is abandoned, and the forces intended for service in that island are to be sent to Cuba. The Board of Strategy, which is said to be composed of the highest military and naval authorities, has decided to concentrate all available forces in Cuba and plans for the occupation of Porto Rico will not be considered until the United States forces have complete control of Cuba.

The island of Cuba is 760 miles long and it varies in width from 35 to 120 miles. It is proposed to start the army from the eastern end of the island westward and drive the Spaniards into the sea or take them prisoners of war. A sufficient number of men will be landed to overcome the Spaniards and occupy important points along the line of march. The only thing that can prevent this plan of campaign from being successfully carried into effect is climatic conditions. Cuba is within the tropics and fevers are prevalent there in the rainy season and fall of the year. If those fevers do not incapacitate the American troops their march from Santiago west will be uninterrupted and Havana, which can receive no supplies by land or water, will be ready to capitulate when our victorious army arrives at the city.

OPPOSING FUSION.

State conventions are being held in many of the States East of the Mississippi this week. Generally the Silver Democrats, Silver Republicans and Populists fuse, though a faction of the latter known as "Middle of the Road" Populists and the Gold Democrats refuse to have anything to do with the other. In Minnesota, Michigan and South Dakota, the Silver Democrats, Silver Republicans and Straight Populists, favor fusion tickets, but the Cleveland or Gold Democrats and the "Middle of the Road" men would not unite with them, and are determined to help the Republicans out by nominating separate tickets.

There seems to be no good reason why men claiming to be believers in the Omaha platform, which declares for free coinage of gold and silver, should not fuse with silver men of other parties. It is not to be expected that men who believed in Clevelandism and the single gold standard should affiliate with silver men, but it seems inconsistent for advocates of the principles laid down at the Omaha Convention to do all in their power to assist the gold men by refusing to fuse with those who believe in one or more of the cardinal principles of that convention. There are doubtless a few such persons in Nevada and probably a small number of Cleveland Democrats who will attempt to give aid and comfort to the gold men by refusing to coalesce with the silver men, but they are not numerous enough to accomplish their purpose.

BLANCO should be careful how he refuses to recognize a flag of truce. The time is not far away when he will be in a pretty fix if the United States shall be governed by a similar barbaric notion.

The Star Side of Alaska.

Professor Dennis, a Princeton teacher, has reached Vancouver on his way home from an attempt to get to Dawson by way of the Stikine route. He spent three months in the attempt, and says that only fifty prospectors have succeeded in reaching Lake Teslin. Flour is selling for \$100 a sack; lumber \$350 a hundred, and whiskey 50 cents a drink. A London Illustrated News correspondent is credited with having worn out and killed nineteen horses in trying to reach Lake Teslin. Dogs are starving on all sides. One Michigan man lost 119 in a single week.

Jones' Oregon Mine.

Senator Jones of Oregon, who recently purchased the Mount Ruben mine, has a bonanza, says a Josephine County, Oregon, exchange. A depth of 350 feet they crossed the ledge, and have seven feet and nine inches of solid quartz, the lowest assay of which goes \$25 and the highest \$2,700. Jones intends, if the ledge recently pierced on the side of the hill is found equally as rich, to have 500 men at work in the Mount Ruben mine early in the fall.

CONDENSED WAR NEWS.

The cable station is within seven miles of the point where debarkation is going on near Guantanamo. The officials say it will take several days to land both the troops and supplies. The harbor at Guantanamo is a valuable acquisition, forming as it does a safe refuge for the fleet from any West Indian cyclone.

The War and Navy Departments know of nothing further regarding the situation at Santiago. Troops are being landed for several miles up and down the coast.

A special from Playa del Este, Cuba, says the last of Shafter's army of invasion landed at 1 o'clock yesterday morning.

A Kingston dispatch says: Up to 5 p. m. Wednesday six thousand American soldiers encamped at and around Baiquin. Time and sea were propitious, the navy cooperated and five thousand Cubans lay on their guns in the brush and mountain fastnesses watching every mountain road and path leading from Santiago. The landing was affected without loss of life.

A Kingston dispatch of the 23d says: A Cuban who left the city of Santiago Monday night arrived in Garcia's camp with accurate maps of the fortifications and harbor. He reported that both the torpedo boat destroyers were disabled and that the torpedo boats have not since their arrival made any attempt to leave. Guns from the ships are being planted on earthworks surrounding the city. The troops are all on half rations. There are no drugs and discontent prevails on every hand.

A dispatch received at Madrid from San Juan, says an American cruiser appeared off the harbor and the cruiser Isabella, a gunboat and the Terror sailed out to attack her. The Americans withdrew immediately. One Spaniard was killed and three wounded.

The Manila R. R. Co., at London have received a cable message saying that although the insurgents have captured all except the interior city of Manila, they are respecting property. It is understood that Guisardo has a compact with Dewey not to attack the city until the troops arrive.

Russia's first Ambassador to the United States, Count de Leassini was formally presented to President McKinley yesterday morning.

The Clever Burglar.

The burglar who does several "jobs" and eludes the officers of the law is a keen observer, a man of forethought, and one whose executive ability is unquestioned. Houses are not entered because they have brownstone fronts, nor are stores broken into by the professional thief without an investigation. When the skillful burglar is to do a "job," he studies the habits of the resident or proprietor. In a case in Troy a few years ago a jewelry store was robbed. Apparently there was not a clue. Detectives were placed on the case and named the thieves by the method employed in getting into the store, and subsequently the thieves were convicted. Certain burglars always enter a cellar and come up through stairs, floor or trapdoors. Others have skeleton keys. Others go above and come down stairs. Some break in rear and others front doors. In the robbery above referred to the two thieves had been in Troy three successive Saturday nights. They had fastened a silk thread on all entrances in such a way that if any one entered or left the store the thread would be broken. Thus the burglars learned that the proprietor and clerks did not visit the store after closing Saturday night until Sunday. The fourth Saturday night they "cracked" the safe. Except for their methodical way of entering (by the cellar) no suspicion would have attached itself to them.—Troy Times.

A Disgusted Hero.

The story of Sergeant Walker, who was kept prisoner for six weeks by the Afghans and was court martialed for being "absent without leave," reminds me of an Indian tale of 1757, when a man-of-war's man, Strahan by name, captured almost single handed one of the forts on the Hoogly. The fort, which was strongly situated, was invested by the admiral, and Strahan, during the time of midday repose, wandered off "on his own" in its direction. Gaining the walls without discovery, he took it into his head to scale a breach made by the cannon of the ships, and on reaching the platform he flourished his cutlass and fired his pistol at "the niggers," shouting, "The place is mine!"

The native soldiers attacked him, and he held his own with indomitable pluck till re-enforced by one or two other tars who had struggled out of camp and heard his huzzas. The enemy, unprepared from this ill timed attack and fearing further invaders, fled from the fort upon the opposite side, leaving 20 cannon and a large store of ammunition. Much to Strahan's surprise, he was lectured by the admiral for his breach of discipline, and he was dismissed with hints of future punishment. "Well," said Strahan, "if I'm flogged for this here action, I'm d—d if I ever takes another fort as long as I lives!"—London Sketch.

It is Estimated That They Own Twenty Million Acres Here.

How much property do British subjects own in America? The aggregate, based on absolute facts, is known to be at least 20,000,000 acres, asserts Tit-Bits.

The largest of all is probably the Texas possession of the syndicate which includes in its membership the Dukes of Beaufort and Rutland, Earl Cadogan and the Baroness Burdett-Goutta.

The total amount of land held by this association is 8,800,000 acres. It is, as is the case with most of the Texas land, largely composed of what is called range country—that is, land that is better adapted for cattle raising than anything else.

Cattle and wheat are what the British investor seems to think money should be made on in the United States. That is why the syndicate represented by the British capitalist Vincent Scully owns 8,000,000 acres of land in Nebraska, Iowa and Illinois. This property is situated in the heart of the wheat growing section.

Two American girls, who now wear, by virtue of their marriage with English peers, two of the highest British titles—the Duchess of Marlborough and Lady Randolph Churchill—are interested with Sir Edward Reed in a syndicate that owns 2,000,000 acres situated in Colorado, Wyoming and New Mexico. This is purely a cattle country, and on it range thousands of head of live stock.

There is another syndicate which includes among its members the Earl of Dalhousie, as well as Viscountess Cross, Lady Hamilton Gordon, the Marquis Cholmondeley and several others.

There is a holding in a still different part of the country, for the lands of the syndicate comprise 1,800,000 acres in Mississippi, including cotton plantations, acres and acres of sugar cane and enough swine to stock 1,000 farms.

Lord Tweeddale is a syndicate in himself and owns 1,300,000 acres. Like most individual land owners with vast holdings, his property includes a large territory which, like that of the syndicate spoken of, includes immense tracts of grazing lands. Nearly all of this immense possession is devoted to stock.—St. Louis Republic.

THE INFANTRY BATTALION.

The Militia Authorized to Make up the Full Quota.

The six companies of the National Guard of Nevada have been called upon to furnish the four companies of 106 men each to form the infantry battalion called for from this State by the War Department. The four companies which first responded to the call will doubtless be accepted. Those not now members of the National Guard, who desire to volunteer, should join the militia company nearest their place of residence. It is probable that all volunteers, whether from the militia or not, will be uniformed or equipped before leaving the State and that the battalion will be mobilized and mustered into the service at Reno or Carson. Lieutenant Charles A. Bennett of the Third United States Artillery, has been appointed mustering officer. The gentleman passed through to Carson yesterday morning and intends to remain and assist in organizing the battalion. It will probably take two or three weeks to organize the battalion. Several applications have been made for command of the battalion, in fact there would not be much trouble in organizing a regiment of officers in Nevada.

SICKNESS AT CAMP MERRITT.

Unwholesome Food the Main Cause and Measles and Diphtheria Prevalent.

Much sickness prevails among the soldiers at Camp Merritt. Many of the men have been made sick by unwholesome food, principally canned meats, canned beans and such truck.

There ought to be some means of detecting the contractors or manufacturers who sell this truck to the soldiers and they should be jerked up and publicly shot, the same as a traitor to the Government, without even the benefit of a trial. If these fellows can make money out of the Government it matters little to them how many men they kill or how much suffering they cause. A treacherous Spaniard is an honorable man compared to a contractor or manufacturer who sells food of this character to the soldiers.

A threatened epidemic of measles and diphtheria and other common complaints in the camp is bad enough and cannot well be avoided, but there is no excuse for spoiled and unwholesome food and if those who are to blame can be discovered a summary example should be made of them to deter others from such thieving acts.

THE ASSEMBLY.

A New and Handsomely Equipped Resort.

The Assembly is the name of a new resort situated in the Wheelmen's building, opposite the post-office. Mr. J. B. Jones, late of Victoria, is the proprietor and being favorably impressed with Reno has come here to live. The appointments and furnishings of the Assembly are neat and very elegant. The wood work is finished in pure white and gold, the bar is of white marble and the glass ware and other fixtures are of the latest and most approved patterns. Two neat card rooms screened with silk curtains are a part of the arrangement and heavy portieres serve in the place of the usual screens. The floors are covered with linoleum and the furniture is of superior quality. The appearance of a saloon is avoided as much as possible and upon first entering, one fancies that he has stepped into the cabin of a modern steamer. Mr. Jones will formally open the Assembly on Saturday evening and extends a general invitation to all to call and see him. A fine lunch will be a feature at the Assembly.

SENATOR STEWART'S BOOK.

The "Analysis of the Functions of Money."

Senator Stewart's book, "Analysis of the Functions of Money," has reached our office. It is handsomely bound in cloth and contains a fine half tone picture of the author. It must be admitted that no able writer on the subject mentioned can be found than Senator Stewart. He has made this subject the study of a life time, accumulating data and information that cannot be contradicted. Every one who is able to do so, should procure a copy of this work and read it carefully. The Senator writes in a plain matter of fact style every word and line of which can be easily understood by the ordinary reader and a thorough knowledge of the money question gained.

A LAWN PARTY.

Mr. and Mrs. J. F. Aitken Entertain the Wheelmen.

Mr. and Mrs. John F. Aitken entertained the Wheelmen at a lawn party at their home last evening. Over a hundred guests were present and a jolly evening was spent. Vocal and instrumental music, cards and games were featured, the evening closing with refreshments. Several short speeches were made and the host and hostess were the recipients of many good wishes and much praise for their kind hospitality.

Will Apply to Reno as Well.

The Improvement Club at their meeting last Tuesday night passed a resolution calling upon our citizens on main street to make it a part of their business to drive protruding nails down and adze away large knots on their respective sidewalks.—Carson News.

The above will apply to Reno as well and in view of the Fourth of July Celebration it would be a good idea for the improvement to begin at once.

A bunch of three door keys was picked up on the street and left at this office. The owner can have same by calling.

Royal makes the food pure, wholesome and delicious.

RENO TO THE FRONT.

Captain Stoddard and Company, O Tender Their Services.

The first squad of volunteers in response to the Governor's call for a troop of cavalry arrived at the rendezvous at Carson from Reno. Now the first company of infantry to offer its services is from Reno. Captain Stoddard of Company C, sent the following to the Governor:

"We respectfully tender the services of Company C as part of the battalion to be organized in this State and hope our service will be accepted.

C. H. STODDARD, Captain Company C.

Colonel Lord has accepted the services of the Company and it will probably be the first to arrive at the place of mobilization to be examined and mustered into the service.

Omaha Exposition.

The people of the Mining States are beginning to wake up to the fact that the mining exhibit of the Trans-Mississippi Exposition exceeds any collection ever exhibited in this or any other country, not even excluding the Columbian World's Fair, and in which Nevada leads.—Omaha Bee.

The Omaha Exposition stamps have been issued and are now getting into circulation some of which have reached Reno on letters and papers. The medals will be here soon and can be procured from Col. Maxson, who is at present working on the half fare excursion which is to leave here next Sunday morning for Omaha.

A grand Fourth of July celebration will be had at Omaha composed of the people of all nations, who are drawn there by the Exposition. The military contingent of the procession will be a novel feature.

A Clever Trick.

It certainly looks like it, but there is really no trick about it. Anybody can take it who has lame back and weak kidneys, malaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to liver and kidneys, is a blood purifier and nerve tonic. It cures constipation, head aches, fainting spells, sleeplessness and melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only 50c a bottle at S. J. Hodgkinson's Drug Store.

For the Goddess of Liberty and Floral Queen.

Balloting commenced yesterday for the Goddess of Liberty and Floral Queen for the celebration on the Fourth of July. Up to 9 o'clock last night 189 votes had been cast at the several polling places divided as follows:

Sadie Phillips..... 105
Kate Sunderland..... 45
Kate Mayberry..... 7
Bessie Evans..... 5
Louise Ward..... 5
Maude Wheeler..... 2

A Heavy Shortage.

The shortage of L. Guggenheim of Virginia, including amounts deposited with him by private parties, the several orders and associations for which he acted as Treasurer, will amount to over \$7,000. His peculations went on for years, he being enabled when called upon for money from one Society, to draw from the several funds in his possession of different organizations to make up the amount. In this way his cash account, when required to make a report seemed to always be correct.

The Red Cross Work Committee has received the necessary material for the preparation of such articles as may be needed by the soldiers. All ladies are requested to call at the Society's headquarters and receive their allotment of work.

A. E. Patterson, a member of the Capital City Wheelmen of Sacramento, was in town last night.

THE SLUMP IN PRICES.

It will Have a Depressing Effect on the Republicans at the November Election.

EDITOR JOURNAL: Famine abroad and bounteous crops at home, has given the United States, the present fiscal year, the largest favorable trade balance on record, and as a result several industries are in a more favorable condition than for several years.

The champions of the present Administration are "pointing with pride to the glorious record of the G. O. P." and claim that the temporary prosperity of a few industries for the past year is due to the wise legislation of the present Administration. The people are generous with the party in power and if the steering committee of the G. O. P. claim the credit for the raise in price of grain the past year, the people will also hold them responsible for the slump in prices for the coming crops, and the November elections will be disastrous to the Administration forces.

In addition to the decline in prices for numerous products, the Administration must also take the odium of the present bond issue. With a treasury balance of \$180,000,000, seven-eighths of which is gold, and with the demand for legal tenders far exceeding that of gold, the present bond issue was entirely uncalled for and is an odious mortgage on present and future generations who will be taxed to support the bondholders' in untaxed and unwholesome idleness.

FARMER.
Reno, Nevada, June 22, 1898.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who is not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on S. J. Hodgkinson Drugist, and get a trial bottle. Regular size 50 cent and \$1. Every bottle guaranteed, or price refunded.

ONE of the Wells Herald correspondents writing from Gold Creek, says: "The Gold Creek Company, placer mines have again been closed down and the old camp is as quiet as a graveyard."

Pat and the Battie.

"Pat, where did you get the whiskey?" asked one section head of another. "Whist!" said Pat. "O! swiped it from the private car dat was here."

"Pat, the brass collars are going to miss it by and by. You better hide it," said the first speaker.

"Let's take this hand car and run down the track a ways and bury it," said Pat.

The two got a hand car and told the foreman they were going down the track to get some potatoes for dinner. Away they went down the track about a mile.

"This is a good place," said Pat. The two got off the car and buried the bottle near the track.

"How will we know where we buried it?" said Pat.

"Cut a notch in the side of the car," said his companion. So a notch was cut in the side of the car above where the bottle was buried and the two warriors returned to their work. That evening they decided to go and dig up the bottle. Away they went.

"Where is the place?" asked Pat. "I cut a notch in the car to show," said the other.

"And begorra I forgot all about it and moved the car," said Pat.—Topaka State Journal.
